

## Husqvarna K 2500

*The Husqvarna K 2500 works with a traditional 400 mm cutting blade, and is frequently used for pre-cutting where you finish the job with a K 3600. The K 2500 is surprisingly light and manoeuvrable, powerful and durable, so you can work efficiently and comfortably for longer periods. As you avoid exhaust fumes and high noise levels, it's particularly well-suited to working indoors.*

## Features Husqvarna K 2500

- Hydraulic gear motor
- Blade brake
- Servo for motor speed control.
- Replaceable arbor bushing
- K 2500 is especially light and manoeuvrable.
- Powerful, durable cutter that allows efficient work during long shifts.
- Capacity for a 400 mm blade.
- High power output, 5.2 kW, with hydraulic operation.
- Servo for motor speed control.
- Blade brake stops the blade within a few seconds.

TECHNICAL SPECIFICATION	
Power output	5,2 kW
Hydraulic flow, max	40 l/min
Hydraulic pressure	140 bar
Max cutting depth	145 mm
Arbor Size	25,4 mm
Blade diameter	400 mm
Weight (excl. cutting equipment)	8,3 kg
Vibrations front handle	7,5 m/s <sup>2</sup>
Vibrations rear handle	5,2 m/s <sup>2</sup>
Sound power level, guaranteed (LWA)	107 dB(A)
Sound pressure level at operators ear	85 dB(A)
