HUSQVARNA HIPERCLEAN™

FLOOR MAINTENANCE
SOLUTION BY HUSQVARNA

HIPERCLEAN™ MAINTENANCE PADS

CHANGE THE WAY YOU CLEAN FLOORS

Husqvarna Hiperclean™ is an economic and effective solution for cleaning and maintaining concrete and other hard floors without the need for chemicals. Just replace the regular cleaning pads under your cleaning machine with Hiperclean™ pads, add water and you're all set.

- **Superior results over time**
- **Less periodic maintenance**
- **No need for chemicals - only water**
- **Super-easy implementation**
- fits most cleaning machines

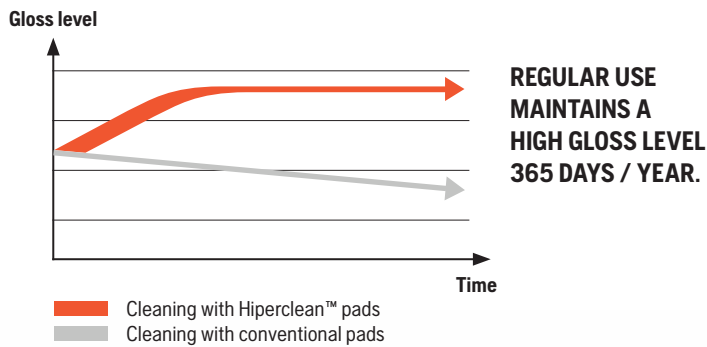

FAST & EASY

No drying time.
Floor can be used to
walk on during the
cleaning process.

EXCEPTIONAL RESULTS. HIGH GLOSS WITH EVERY CLEAN.

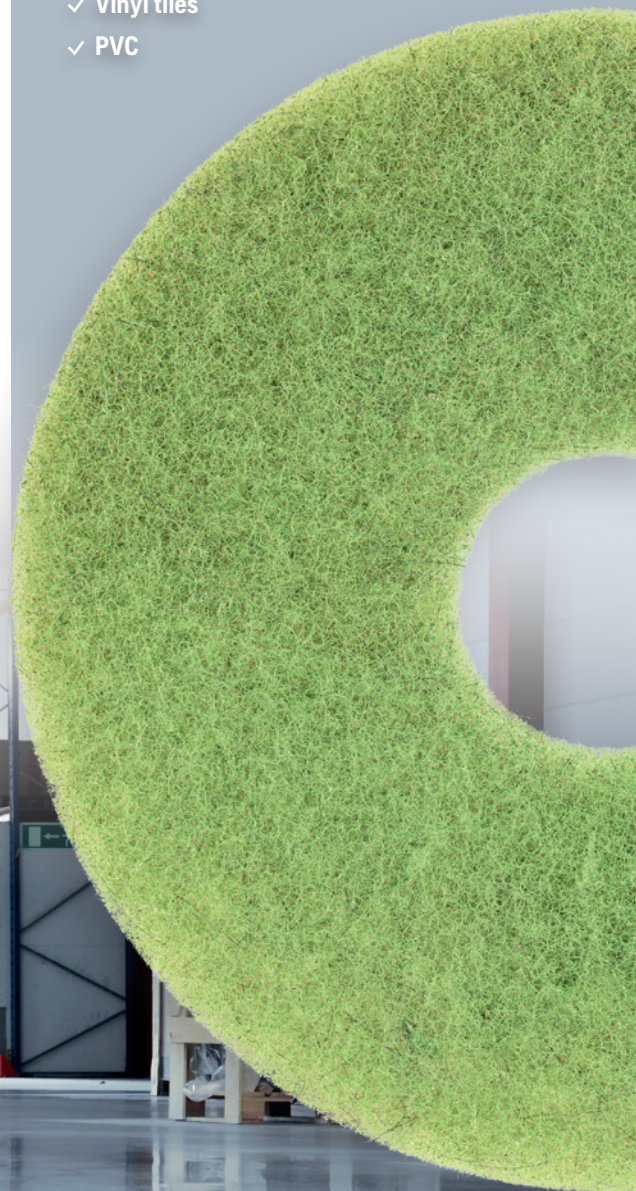

Hiperclean™ can be used on most hard floors including vinyl, PVC and linoleum. The diamonds impregnated in the pads mechanically clean the floor and even repolish the floor every time it is cleaned, meaning gloss levels are maintained over time by regular use of the pads.

A worn floor can be easily revitalised by a three step process and after that be maintained with its high gloss – all this by using Hiperclean™ pads in different grit levels and only adding water.

CLEANS AND POLISHES MOST HARD FLOORS

- ✓ Polished concrete floors
- ✓ Untreated concrete floors
- ✓ Natural stone
- ✓ Terrazzo
- ✓ Ceramic tiles
- ✓ Vinyl tiles
- ✓ PVC

COST EFFICIENT

Hiperclean™ pads can be used on any floor type removing the need to change equipment and method of cleaning, which can cost time and money. Pads can be used both wet and dry eliminating the need for chemicals. Together with the removal of periodic maintenance, this makes it a more cost efficient choice.

FLEXIBLE

Available in a range of diameters 125–690 mm (5–27 in) suitable for grinders, scrubber driers, hand tooling and high speed burnishing equipment. Can be used wet or dry, depending on application.

NO CLEANING CHEMICALS

With the Hiperclean™ method there is no need for cleaning chemicals. By simply adding water you can achieve an even better result with no need for layers of wax or polish.

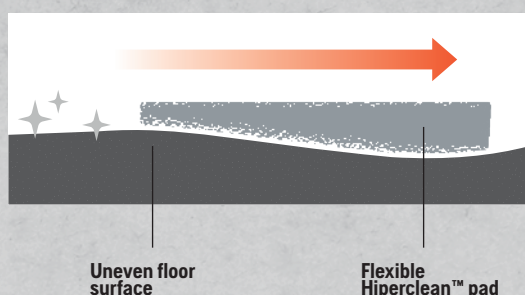

EASY TO USE

All you need is your equipment, Hiperclean™ pads and water. No mixing or dilution of chemicals or other substances are required.

HOW IT WORKS

By combining the fibres on the maintenance pad with the hardness of the impregnated diamond, the pad follows the profile of the floor. In combination with the chosen machine it removes dirt and polishes the surface at the same time.

CHOOSE A METHOD

HIPERCLEAN™ 400#

For deep cleaning and removal of smaller scratches. Upgrades the floor surface from dull and dirty to clean and shiny.

HIPERCLEAN™ 800#

Use during daily maintenance until the surface appears uniform.

HIPERCLEAN™ 1500#

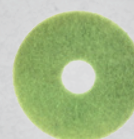

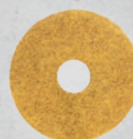

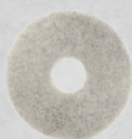

Change to 1500# for increasing shine.

HIPERCLEAN™ 3000#

Continue the process with 3000# to improve the shine and the gloss of the floor even more.

OPTIONAL STEP

For ultimate gloss levels polish with Hiperclean™ 3000# pads and a high-speed machine.

	Hiperclean™ 3000#	Green	9 / 230	589 81 05-04	
	Hiperclean™ 3000#	Green	10 / 270	501 76 40-12	
5	CLEAN & PROTECT			529 75 52-03	CLEAN & PROTECT is a natural soap, specially developed as a cleaning and treatment solution for concrete and natural stone floors. The soap is entirely based on natural products, and the mixed solution has a pH of 8. The solution leaves a durable upper surface that simplifies future maintenance. Can be used either with a cleaning mop or an auto scrubber.
