

ARX 16-2

LIGHT TANDEM VIBRATORY ROLLER

EU Stage V / U.S. EPA Tier 4 final

OBSTRUCTION AVOIDER

The Ammann ARX 16-2 is a light, articulated ride-on roller that works flush against curbs and other obstructions and eliminates the need for special edge compaction efforts. The roller is powered by a Kubota engine. A new vibratory circuit setting delivers expanded frequencies that facilitate quicker compaction. The machine includes controls that enable intuitive operation; simple adjustment of soft/hard drive modes; safe and secure transport; and cost-effective serviceability.

APPLICATIONS

- Small and medium construction sites
- City roads
- Boardwalks
- Repair works in city centre

PRODUCTIVITY

Electronic drive lever

Advanced drive control enables smooth starts and stops during machine operation.

Articulation joint with oscillation

Great manoeuvrability and constant contact with the surface are key factors in achieving high quality compaction.

Sprinkling system

Multi-level filtration system with large water tank for extended intervals between fillings.

ERGONOMICS

Operator platform design

Spacious operator platform with comfortable driver's seat.

Simple & convenient operation control

Dashboard with clear display and intuitive machine control.

Exceptional operator visibility

Perfect all-around machine visibility to maximise safety on the jobsite.

SERVICEABILITY

Tool-free daily inspection

Quick and easy daily inspection.
