

ARX 45-2C

LIGHT TANDEM VIBRATORY ROLLER

EU Stage V / U.S. EPA Tier 4 Final

WORKING AROUND OBSTRUCTIONS

The Ammann ARX 45-2 C Light Tandem Roller makes it easier to see – and work – near obstructions. It also offers a drum in front and tyres in back to provide both compaction power and the sealing effect of pneumatic rollers. The roller features a new articulating joint that enables quick drum adjustment from in-line to offset configurations, helpful when working close to obstructions. Operators need watch only one drum, knowing the second will be a safe distance from the obstacle. The in-line drum setting is available when it's time for productivity in open spaces.

APPLICATIONS

- Small and medium construction sites
- City roads
- Boardwalks
- City street repairs
- Road maintenance
