

### DF Mini Duo ASB

The Dust Fighter **DF Mini Duo ASB** is a portable dust control unit with two satellite heads able to spray the nebulized water up to 8 metres each. This models has been specifically designed for use on **asbestos removal jobs**, since the absence of a fan allows the operator to suppress the asbestos dust without moving it in the air, moreover in the main unit and the two satellites there is a total absence of protruding parts so that the machine can be easily washed to eliminate safely every leftovers of asbestos dust.

### Standard Equipment

- Main unit with pump and stainless steel 70 litres water tank
- 2 satellites with spraying heads
- 3 interchangeable type of nozzles for different coverages
- Wheels and handles for transport
- High pressure pump
- Signal for low water level
- Closable for an easy transport
- Manually adjustable nozzles spray angle

### Optional

- Connection from the water supply network

Picture shown may not reflect actual configuration.

DF Mini Duo ASB	Technical Data
Pump	230V – 50 Hz – 2,6 A Kw 0,55 – 100 bar
Nozzles spray angle	From 80° to 150°
Tilting heads	High 25° – Lower 15°
3 different nozzles	
High:	Distance 8 meters each
	Total duration 40 min
	Total coverage 166 sqm
Med:	Distance 7 meters each
	Total duration 72 min
	Total coverage 128 sqm
Low:	Distance 5 meters each
	Total duration 160 min.
	Total coverage 66 sqm
Tank capacity (main unit)	70 litres
Main unit dim. (L x W x H mm)	710 x 600 x 1030 mm
Satellites dim. (L x W x H mm)	620 x 370 x 1800 mm
Main unit dry weight	61 Kg
Satellites weight	21,5 Kg each
