

CONCRETE POWER FINISHING

FLEXTOOL[®] PORTATROWEL[™]

The PortaTrowel's lightweight design improves operator safety and allows for earlier commencement of concrete finishing when compared to heavier walk behind machines. Matched with multi-use combination blades and a variable-length pole, this unit achieves optimum control from up to 6 meters away and allows the operator to complete finishing works without the need to step foot on the wet concrete.

Honda GX35 engine

- Hassle free operation
- Low engine emissions

Blade pitch function of up to 25 degrees

- Allows for the PortaTrowel to be used for initial floating of the wet concrete right through to final finishing

Robust, durable and fully sealed inline planetary gearbox

- Hassle free for extended operation

Control from up to 6m away

- Variable length pole/stick for optimised control when finishing concrete

*Clip Together Handles sold separately

Easy control directional steering function

- Allows for precise movement of the PortaTrowel by twisting the handle from side to side

Lightweight design

- Improved operator comfort and safety
- Efficient operation
