The metric equivalent of working height adds 2m to platform height. US adds 6ft to platform height.
 Based on RT tires; deduct 2in/5.8cm for turf and non-marking tires.
 Gradeability applies to driving on slopes and may vary depending on options and machine configurations. See operator's manual for details regarding slope ratings.
 Weight refers to standard configuration and may vary depending on options and/or country standards.
 Floor loading information is approximate and may vary depending on options and machine configurations. It should be used only with adecuate safety factors.

It should be used only with adequate safety factors. \* GS-5390 comes standard with outriggers. Machine length with outriggers represents overall length.
