

FLEXTOOL PORTASCREED® FPS-3

Featuring high-frequency vibration across the entire width of the extrusion blade, the Flextool PortaScreed FPS-3 delivers accurate and high-quality screeding that is much faster than traditional screeding methods. The PortaScreed has been optimised to improve operator comfort and efficiency, incorporating handle vibration isolators for reduced vibration transfer to the operator, a fully adjustable twin-handle system for easy height adjustment and a sturdy spring-loaded kickstand for straightforward refuelling and storage.
